The Gift of MULTIPLE INTELLIGENCES

The human brain is the most complex organ known. A typical brain is comprised of at least 100 billion brain cells and each of these neurons possess thousands of connections to other neurons.

No two brains are configured and wired exactly alike, not even those of identical twins. It is a major mistake to believe that you can accurately describe your true intelligence potential with a single number such as an IQ score. The human brain has many more equally important skills in addition to 'Logical Thinking' and 'Verbal abilities' that comprise your IQ score.

MULTIPLE INTELLIGENCES for EDUCATORS

buzan
pune

**What is Intelligence? What does it mean to be clever?
Is it related to common sense? Is it the same as wisdom?**

**Does it involve creative thinking? Or is Intelligence
merely the ability to score highly on academic, IQ-type tests?**

Intelligence is an abstract term – like beauty or love – its meaning varies according to the situation, but we know that effective individuals act 'intelligently' using a unique set of abilities required by the task & circumstances.

In 1983, Howard Gardner redefined intelligence by introducing the notion of "Multiple Intelligences". He argued that a person's intelligence varies according to "HOW you are smart", not 'how smart ARE you'.

Most of us know someone who is academically intelligent, but rather incompetent in daily life and conversely, someone with a limited education but who can display remarkable abilities in other walks of life.

The MIDAS™ Profile

The Multiple Intelligences Development Assessment Scale is a self completed questionnaire that can be administered and interpreted by Trained individuals teachers, counselors, psychologists.

Validity studies support the conclusion that the MIDAS™ profile provides a reasonable estimate of a person's 'intellectual disposition' that corresponds well with other indicators of skill and ability.

There are 8 main scales for each of the Multiple Intelligences and 25 sub-scales that provide qualitative information within each of the main areas.

The MIDAS™ has been translated in to 12 different languages & is used in more than 23 countries..

Course Content

Multiple Intelligences:

- 'In the beginning was the WORD..' (Verbal)
- 'As easy as 1,2,3..' (Logical)
- 'Seeing is Believing' (Spatial)
- 'Actions speak louder than words' (Kinesthetic)
- 'We've got Rhythm' (Musical)
- 'Learning together' (Interpersonal)
- 'Thy Consciousness' (Intrapersonal)
- 'It's 100% Natural' (Naturalist)

Review of the research on M.I.

**Course content is subject to changes.*

Duration:
7 hours

Programme Leaders:

Jas Johari

Jas is the only Buzan Advanced Licensed Instructor in India and has trained a number of Corporates.

She has also trained the faculty members of Educational Institutes & a number of students.

Jas is the only qualified and trained person in India to conduct and interpret the results of the Multiple Intelligence Development Assessment Scale.

Maneesh Johari

Maneesh is the CEO of the Buzan Centre Pune, the only centre of the Buzan Organization in India. He has been instrumental in increasing the awareness of Mind Maps® in the country & has facilitated Mind Map® trainings at a number of Business houses like Bajaj Auto, Tata Motors, L&T Infotech, HSBC Global, Aditya Birla Group, Godrej & Boyce, Nicholas Piramal, HDFC Insurance, Whirlpool, Halliburton, Zydus Cadila, and many more.
