Importance of Mind Maps® :

Mind Maps® are the Simplest, yet, the most powerful way of feeding information into the Brain.

The traditional way that we've been trained to do so...is probably not very effective.

If it was, then, we would not experience trouble with even basic functions like effective retention & recall; lack of concentration & interest; issues with comprehension, understanding & applications; loads of stress & tension now being faced by students at a very early age....

And many more.
