MULTIPLE INTELLIGENCE DEVELOPMENTAL ASSESSMENT SCALES

MULTIPLE INTELLIGENCES

Contrary to the age old myth – that we are 'born intelligent', we see around us that even those considered 'not intelligent' in the traditional sense.. are doing well in life! This shows that there is much more than just IQ & EQ which determines whether a person is "SMART".

Each individual is blessed with EIGHT Intelligences – which include: InterPersonal, IntraPersonal, Kinesthetic, Musical, Spatial, Naturalist along with Linguistic & Logical (Math.) and each person would score differently on each of these.

M.I.D.A.S. – assesses the level at each of these and the results could be used to consciously improve performance.

Find out "How are YOU smart" and – not just "How SMART you are".
